

## **GENERAL**

Credentify is committed to developing open and fair policies for the use of Credentify credentials. We are equally committed to protecting the privacy of our users online. This privacy and use statement discloses the privacy and use practices for the Credentify web site.

## **USE**

Information gathered from users on the Credentify website is licensed under the Creative Commons Attribution-Noncommercial-No Derivative Works 3.0. Rather than perceived as a restriction on use, this is seen as facilitating use through the addition of context, association, and relevance, to make Credentify easier to find and use for educational purposes.

We take no responsibility for the consistency of Credentify credentials that we may link or for the use that any user of the Credentify site may engage in or recommend to others.

## **PRIVACY**

**Sharing of Personally Identifiable Information:** Credentify respects the privacy of the individual and undertakes to protect the confidentiality of personal information that is supplied in the course of membership and participation on the Credentify website.

**Creation and Sharing of User Data on the Site:** Credentify provides its registered users with the privilege of adding user-created data to the site. It is the right of Credentify to grant and revoke this right to any user of the Credentify service.

Credentify is not responsible for any personally identifiable information that a user discloses to sites visited and for the privacy practices of such sites. This privacy statement applies solely to information collected by the Credentify website and service.

## **RESEARCH COLLABORATIONS**

Credentify is part of the MicroHE research project and more can be found on the MicroHE website <https://microcredentials.eu>.
